Remarks

Pursuant to a discussion by telephone on Tuesday, June 27, 2006, applicants submit the present amendment to clarify the recitations of claim 25. The amendment is made solely for such clarification and not to define over any prior art, since applicants believe that the art does not teach the claimed process insulating layer as recited in the claim. Rather the amendment further defines the functionality of the porous insulating layer in a manner similar to amendments to apparatus claims in the parent of the above-captioned patent application.

Applicant authorizes the Commissioner to charge our Deposit Account No. 03-4060 in the amount of \$130.00 for the Terminal Disclaimer fee over U.S. Patent No. 7,003,012. Applicant does not believe any other fees are due in connection with this submission however, if any other fees are due, the Commissioner is authorized to charge the appropriate amount to our Deposit Account No. 03-4060.

Respectfully submitted,

William C. Cray, Reg. No. 27,627
